

# SurfacePro 3D 2.4R2 - Release Notes

Release date: **March 30<sup>th</sup>, 2023**

## New features and improvements

- None in this version.

## Resolved Issues

- Compatibility with Lyft 2.5 Excel file report page naming format.
- Compatibility with Excel files generated from Lyft in Chinese.
- Errors in the information displayed regarding subscription periods for updates and technical support, as well as license validity periods are fixed.
- The export function for 3D PDF models causing image inversions are fixed.

## System Requirements

- Windows 8.1 and Windows 10 (32- and 64-bit editions)
- Processor: Core i5 or better (or equivalent)
- Memory: 4 GB or more (recommended: 8 GB)
- Minimum available disk space: 500 GB
- Recommended network: Built-in network card for Lyft remote control (USB-to-network adapter also compatible)
- Display: 13 in or larger (recommended: 15 in)
- Minimum resolution: 1366 × 768 pixels
- For extensive analysis purposes, we recommend using an additional external monitor, 22 in or larger with a minimum resolution of 1920 × 1080 pixels
- Ethernet port and ethernet cable to remotely operate Lyft
