CAPTURE ON DEVICE

INSTALLATION PROCEDURE (4/6)

6. Repository update

If you press ”**Yes**”, you will update all the libraries (specimens, probes, and scanner) and the applications. **This procedure will not erase the existing user files.** Only the files installed within our repository and with the same name will be replaced.

If you press “**No**” the libraries will not be updated.

If you need later to update the libraries, download “Capture_Repository_Update_3.X.cap” and install them as specified in *INSTALLATION PROCEDURE 1/6*

Note: If you want to remove some or all libraries, you can delete all the folders and install the new repository.

CAPTURE ON PC

INSTALLATION PROCEDURE (1/2)

PC CONFIGURATION NEEDS

- **Operating system: Windows 7 /Windows 8/ Windows 10**
- **Archive management tool (7z, WinRAR, WinZip...)**

1. Download the « Capture_PC_3.x.exe » file and extract the contents (folder location free).

Extracting operation generates the « Capture_PC_3.x » folder.

2. Windows UAC configuration

Better to have the Admin rights at any time to use the CAPTURE PC software.

For this reason, you need to configure the windows UAC at the minimum level (see next page)

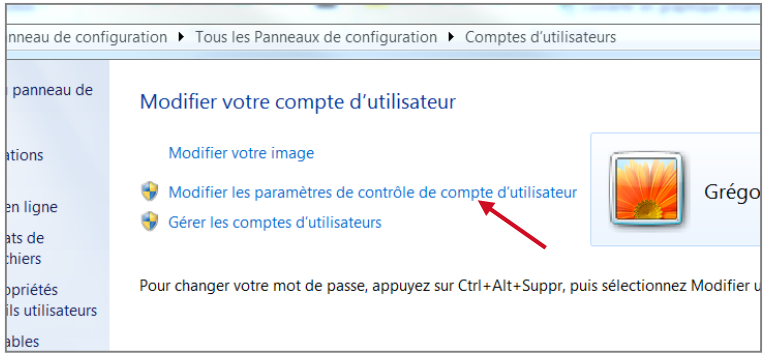
Eddyfi Technologies

CAPTURE ON PC

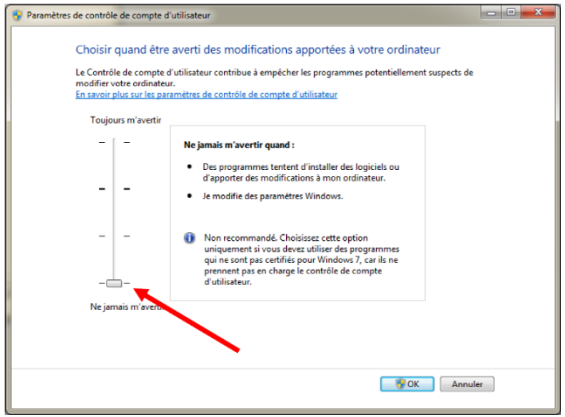
INSTALLATION PROCEDURE (2/2)

2. Windows UAC configuration

- Go to user account then **Modify the user account** parameters in the **Control panel**



- Set the scale button to its minimum level as shown on the right picture



Once all steps are done, restart your PC

Eddyfi Technologies

CAPTURE ON PC

LAUNCHING CAPTURE PC

Execute the « Go_Capture.bat » file located in the « Capture_PC_3.x » folder.

If your PC is Windows 8 operated, you need to « execute as Admin » after right-click on the Go_Capture file.

- The CAPTURE Home page should appear as shown on the right picture

- Depending of the version, hard key (dongle) or soft key is required to unlock functionalities

- From Capture 3.1, 3 different PC versions can be used :

  - Capture Viewer (no licence required)

  - Capture Companion (standard licence required)

  - Capture Pro (advanced analysis licence required)

- **In case of problems, please contact support-m2m@eddyfi.com**
