

Sonyks® 1.2R5 Release Notes

Released on: Avril 29th, 2024

New Features and Improvements

- Integrate the Chinese pipe standard GB/T 17395-2008
 - All series and both steel and stainless steel.
- Addition of the following accessories and tools:
 - 159mm Magneto-Tool
 - 12m Piezo tool lead
 - 12m Magneto tool lead
 - Third-Party High Temperature (HT) modules
 - Rev.A rangePIMS permanent collars
 - Rev.B rangePIMS permanent collars
 - Sonyks to DLM tool lead

Resolved Issues

- Fixes a bug that caused an incorrect timing configuration to be pushed to third party HT tools.
